

## User Guide: WolfCafe

Wolfcafe is an application with four user roles: Administrator, Staff, Customer, and Anonymous Customer. This application allows customers to easily order their favorite recipes and items from Wolfcafe, enables staff to manage inventory, ingredients, recipes, and orders, and provides administrators with tools to manage users, locations, and tax rates. This user guide explains how to use the application, organized by each user role.

### 1. ADMIN

First the administrator must login into the system using their unique credentials and select a Wolfcafe location. Finally click submit. If there are no locations in the system, then the login screen will not have an option to select location. Locations first must be added.

The screenshot shows the WolfCafe application interface. At the top, there is a dark header bar with the "WolfCafe" logo on the left and "Register" and "Login" links on the right. Below the header, the "Login Form" is displayed. It contains three input fields: "Username" with the value "admin", "Password" with masked characters ".....", and "Location" with a dropdown menu showing "Select Location". A blue "Submit" button is positioned below the input fields. At the bottom of the form, the text "WolfCafe © 2024" is visible.

#### Admin Can View Users

The admin can view users by clicking the "View Users" tab. On the "User" tab, the default option shows all users. The admin also has the option to view only staff members by clicking the "View Staff" button located directly below the "List of Users" heading, and the option to view only customers by clicking the "View Customers" button directly below the "List of Users" heading.

## List of Users

[View All](#)[View Staff](#)[View Customers](#)

| Username | Email           | Name       | Roles | Actions                                       |
|----------|-----------------|------------|-------|-----------------------------------------------|
| admin    | admin@admin.edu | Admin User | ADMIN | <a href="#">Modify</a> <a href="#">Delete</a> |

WolfCafe © 2024

### Admin Can Delete Users

The admin can delete a user by clicking the delete button located in the actions column next to the respective user they wish to delete.

## List of Users

[View All](#)[View Staff](#)[View Customers](#)

| Username | Email                     | Name       | Roles | Actions                                       |
|----------|---------------------------|------------|-------|-----------------------------------------------|

| snallap2 | shivaniinallapu@gmail.com | Shivani    | STAFF | <a href="#">Modify</a> <a href="#">Delete</a> |

WolfCafe © 2024

### Admin can Modify Users

The admin can modify a user by clicking the modify button located in the actions column next to the respective user they wish to modify.

## List of Users

[View All](#)[View Staff](#)[View Customers](#)

| Username | Email                     | Name       | Roles | Actions                                       |
|----------|---------------------------|------------|-------|-----------------------------------------------|
| admin    | admin@admin.edu           | Admin User | ADMIN | <a href="#">Modify</a> <a href="#">Delete</a> |
| snallap2 | shivaniinallapu@gmail.com | Shivani    | STAFF | <a href="#">Modify</a> <a href="#">Delete</a> |

WolfCafe © 2024

Once the user clicks "Modify," the admin will be taken to a page titled "Edit User." The fields will already be populated, and the admin can modify any field they wish. When finished, the admin can click the "Update User" button at the bottom of the page. If the admin does not wish to save their changes, they can click "Cancel," which is also

located at the bottom of the page.
